Minutes of the SitV NP Steering Committee Meeting – Monday 23rd February 2015 Held in Stanford School at 7.30pm

1.	Welcome – Colin Mitchell in the chair	
1.	In attendance: JW/ SM/ RR/ JG /RG/HW /SB Plus David Potter from VWHDC, Tom McCulloch	ACTION
	from ORCC, Peter Lewis from Parish Council and Robert Sharp out district Councillor	ACTION
	Apologies: PG /RP	
	Declarations of interest any agenda item: None	
2.	Agree Minutes of Last Meetings : Minutes from 9 th February to be amended and confidential	
	minutes added. Both to be signed at the next meeting	
3.	Matters arising not on the Agenda:	
	The conservation appraisal is going to be reviewed by the VWHDC, and it was suggested	
	that the steering group could advise and should also be consulted. DP to pass this on.	
	Tom passed over hardcopies of Neighbourhood Plan Housing Survey Report, a report	
	appendix with people's comments and the report from the proposed Strategic Site	
	Consultation and Public Vote.	
4.	Site Assessments	
	 Site Assessments are being conducted and should also consider the type of housing needed. 	
	 Information from the Site Assessments could be particularly useful when the Local Plan Part 2 comes in. 	
	From all the Site Assessments there are only a few that need further investigation. Very	
	few owners want to take a site forward or the site has constraints. There was a lengthy	
	discussion about the difference between the availability, deliverability and suitability of	
	sites.	
	 There needs to be criteria for reserving sites for particular types of use so that a body of evidence is built up. 	
	 DP happy to look at any site assessments to check how robust they are. 	
	 'Important views that require improving or enhancing' to be added to the site assessment 	
	summary matrix. This will lower some of the site scores in the matrix and help to	
	reinforce that Stanford is still a village and not a town.	
	Increased housing will increase commuting from the village and this should be	
	highlighted in our plan but an appeal inspector will weigh this against the national	
	housing need. The importance of having a Neighbourhood Plan with all the site	
	assessments was reinforced.	
5.	Short list of Primary and Contingency Sites	
	To be discussed at next meeting after further consultation between JG / SB/ HW	JG /SB/ HW
6.	Green Spaces List – Policy	
	PG has consulted with Darren Rolls as to all the Green Spaces that he regularly mows. The section of the	PG
	These have been recorded on a map.	1147
	 JW is going on a Village Green training session for Parish Councillors on April 1st and will report back after this. 	JW
7.	Village Consultation	
7.	The next village consultation is booked for Saturday 28 th March from 10.00 – 3.00pm in	
	the Village Hall. This will be a drop-in event for people to come and discuss the emerging	
	plan.	
	There is a need to find a way to convey to the village what the NP is doing so that it is	
	seen as more than a development plan but as trying to shape the village for the future,	
	with the vision that 'Stanford in the Vale should remain a village and we will seek to	
	achieve this by preserving and enhancing the essential character, attractive features	
	and open spaces in our village, together with its rural setting within the parish, and by	
	seeking to control development so that it is complimentary to this desire," at the heart	
	of all we are doing.	
	Need to continue to emphasise that is not the Steering Committee's Plan but one To propose the continue to emphasise that is not the Steering Committee's Plan but one	
	 representing the entire community. Discussion about the deliverability of sites where the owner does not want the site to be 	
	Discussion about the deliverability of sites where the owner does not want the site to be]

considered for development. Displays could include: Finformation about how Site Assessments carried out with answers to some of the following questions – What were the key criteria looked at? Do you agree with these criteria? Has anything been missed out? Make up an imaginary site to show how criteria answered resulting in whether a site could be possible to include in our NP and land use of other sites, retail, business, recreation etc Results from the Housing Needs Survey could be displayed Village Green Spaces – consult on where we want to preserve the green spaces in the village Finformation about what we have done so far Reinforce the objectives of our NP - especially about creating a better village for the future Village Asset list – have we missed any out? Possible new cycle route around the village which could get dedicated funding from the new CILS money. Display possible settlement boundary map and ask for comments. Results of Clubs and Societies Surveys Tom happy to advise on all presentation material as how all the information, especially about the site assessments, is presented is very important. Posters are ready to go out. Information to be given to all businesses in the business parks. Leaflets to be delivered to each house by our volunteers. There was discussion about how the leaflet needs to spell out, as briefly as possible, what the consultation is about so that villagers feel encouraged to come and find out more. This to be agreed at the next willagers feel encouraged to come and find out more. This to be agreed at the next willagers feel encouraged to come and find out more.
