

Comments on Proposed Cycle Route at Public Consultation Meeting on 28th March 2015

Great idea, how about additional route through Wicklesham Quarry to Faringdon [Community] College and the leisure centre?

We NEED it!

I've been dreaming of a cycle path for nearly 40 years! Please make it happen – phase by phase.

Any improvement would be welcome – and for walkers too. Stiles that allow dogs. Link between Horsecroft and Bow Road

Cycleway via Mill Farm – not option 1 please.

Don't like shared use for cyclists and pedestrians – separate tracks. Need room for people to walk side by side, pushchairs, prams, etc.

Great Idea

Cycle path proposals – GOOD!

BOTH sides of the main road, please.

Blue Option 2 is good as it avoids the tip and Earthline lorries.

Perhaps consider extension to Sustrans route 44 from Wantage into Gloucestershire and Cotwolds via Stanford. Think Big!

Great idea for cycle rack at Co-op and huddle.

Brilliant idea, favour option 2

A route to Wantage is also needed.

Yes please, a cycleway is desperately needed.

Phase 3 – yes please but make it sympathetic with the rural area. Phase 4 – difficult to see a best option.

Brilliant idea.

1. Good idea
2. At same time tidy verges
3. Recommend NO LIGHTS at A420 crossing

Brilliant – fully support this idea

Absolutely in favour.

Cycle lane is essential along A417 to Faringdon. Just think how much car use would reduce.

I think this would be wonderful.

Very good idea for all.
